2021 IS HERE AT LAST!

We made it! 2021 is here at last....a time for a bit of faith that things will be better; a time for hoping that we will be together again with family and friends; a time to be thankful for all that we have!

At the end of what has been an incredibly challenging year, we thought it would be good to reflect a bit on what we were able to accomplish this year, and to take a moment to thank the leadership of our club for all that they have done to get us through this time of separation and anxiety, and to all of us for what we have also done to make the gardens we tend to look beautiful and bring joy and happiness to our community.

So here are a few pictures of all of us enjoying what we love best – **GARDENING!**

Historical Society Garden

Frances Plate Memorial Children's Garden

Five Corners Fountain Garden

Talbot County Free Library Garden
